

Why Renew ANLM?

The Home is the Hub

The network has always been essential to the smart home but now it's even more critical with the whole family working, learning and playing from home. By selecting Access Networks as your enterprise-grade network solutions provider you have made the first step in ensuring you have consistent, reliable coverage for your household.

The next thing to consider is proactive support. With Access Networks Live Monitoring, a qualified team of network engineers ensures the health of your network around the clock. If there are any issues on the network, our team is able to proactively address them with the assistance of your preferred residential integrator and typically resolve the problem before anyone notices.

Along with the peace of mind of knowing that you have the best possible network solutions and service available for the residential market, Live Monitoring also provides these advantages:

-  Proactive monitoring of the health of the network devices by our experts
-  Emergency after hours and weekend support for the site
-  Advance replacement on the network components
-  Discounted upgrade path after continuously maintaining Live Monitoring for 4 years

How to Renew

If you are interested in proactively maintaining your enterprise-grade network, reach out to your Residential Integrator to discuss options and activation today.
